(You can cut your costs by providing participants with Couplings, aka mouthpieces, which would allow you to build fewer shooters and prevent the spread of germs if participants need to share shooters.)

Average Cost for an Individual Marshmallow Shooter

- (4) -- 3 inch pvc pipes .21
- (1) -- 6 inch pvc pipe .11
- (2) -- 90 degree elbows .46
- (1) -- 90 degree Tee .46
- (1) -- Cap .36

Total Cost: \$1.60

** (If you Purchase the pipe fittings in bulk <bags of ten> you can save some cost!)**
